

Application of hologram stickers

How to use hologram stickers?

Step 1: clean the glass.

Wet the glass surface with the watering can adding cleanser. Wipe and clean the glass with scraping board or squeegee. You can also use the shovel to remove the sticking dirt when necessary. Clean the glass with special clean cloth carefully and repeatedly until it is clean.

Step 2: The installation of the [hologram stickers](#)

First, choose the place where you would like to paste the hologram stickers and remove the protective film on the back of the hologram stickers. Spray the installed liquid sin the exposure surface of the hologram stickers as well as the cleaned glass surface, then install the adhesive hologram stickers on the glass surface, and float projection film carefully.

Second, when the hologram stickers are pasted, you should immediately again spray installing liquid on the surface of the hologram stickers to make a smooth surface. Then exclude out the bubble and needless liquid out of the space between glass and hologram stickers with professional wiper tool.

Step 3: Trim the edge of hologram stickers

Take a carefully check on the edge of the hologram stickers. Squeeze out the residual bubbles and liquid with scraper and press the edge to enhance the cohesive force on the edge of hologram stickers. Cut the edge of hologram stickers to even.

Step 4: Leveling the surface of hologram stickers

Check whether there are film defects and handle the remaining bubbles and water spots.
